Pune , Maharashtra | +91 9067903004 | pramodkumbhar2002@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY:

AI and Data Science graduate with hands-on experience in Python, SQL and Django for full-stack development. Skilled in building responsive web apps and REST APIs, with additional exposure to React.js, AI/ML, Data Analytics, AWS Cloud and Hardware. Seeking entry level role to apply and expand technical expertise.

EDUCATION:

Loknete Shamrao Peje Government College of Engineering, Ratnagiri

2021 - 2025

B. Tech in Artificial Intelligence and Data Science | CGPA:6.91

12th Grade | Govindrao Highschool & jr. College, Ichalkaranji | Percentage: 75.17%

2021

10th Grade | New Highschool, Kasaba Tarale | Percentage: 82.40%

2019

TECHNICAL SKILLS:

- **Programming Languages:** Python | HTML | CSS | JavaScript | Tailwind CSS
- **Cloud:** Networking | Security | Linux | AWS Services (EC2, S3, VPC, CloudWatch)
- **Databases & Platforms:** MySQL | Jupyter Notebook | Visual Studio Code
- **Web Framework:** Django | React.js | Rest APIs
- **Version Control & Tools:** Git | GitHub | Postman

PROJECTS:

E-Commerce Restaurant Management System | Django, SQL, HTML, CSS | [Project Link](#)

- Developed a full-stack ecommerce web application with secure authentication and product management features.
- Developed **REST APIs** and **optimized SQL queries**, **CRUD** operations to improving response time by **30%**.
- Implemented backend APIs, integrated frontend components, and managed database operations
- Used **Django**, **React.js**, **SQL**, and **REST APIs** to build a scalable, responsive, and data-driven web application

Student Attendance Management System | React.JS, HTML, Tailwind CSS | [Project Link](#)

- Web-based Student Attendance Management System designed to digitally record and manage student attendance efficiently. It allows admins/teachers to track attendance, manage student data, and generate reports in a centralized system.
- The system reduces manual errors, saves time, and improves accuracy compared to traditional attendance methods.

EXPERIENCE/INTERNSHIPS:

Software Developer intern | Landmark Techedge Pvt. Ltd.

Jul 2025 – April 2026

- Developing enterprise web applications using **Django**, **React**, and **MySQL**.
- Designing and integrating **RESTful APIs** for frontend–backend communication.
- Collaborating with senior developers in code reviews, debugging, and performance optimization.

AWS Trainee | Vinsys IT Services:

Sep 2025 – Dec 2025

- Completed intensive AWS Cloud Practitioner training focused on **Cloud Foundations, Architecture, Security, Linux, Networking, Databases, Automation, and Storage Services**.
- Performed hands-on labs with **EC2, S3, VPC, IAM, CloudWatch**, strengthening cloud deployment capabilities by **40%**.

CERTIFICATIONS:

AWS Re/Start Graduate

Python Full-Stack Development Certificate (Kiran Academy)

ACHIEVEMENTS:

- Led the college cricket team to a championship victory as captain and secured top positions in multiple games

INTEREST/HOBBIES:

- Explore Ai and GenAi Tools, Editing, Self-learning from online resources and Traveling, Leadership, Sport.
